What advantages does the travel agency have?

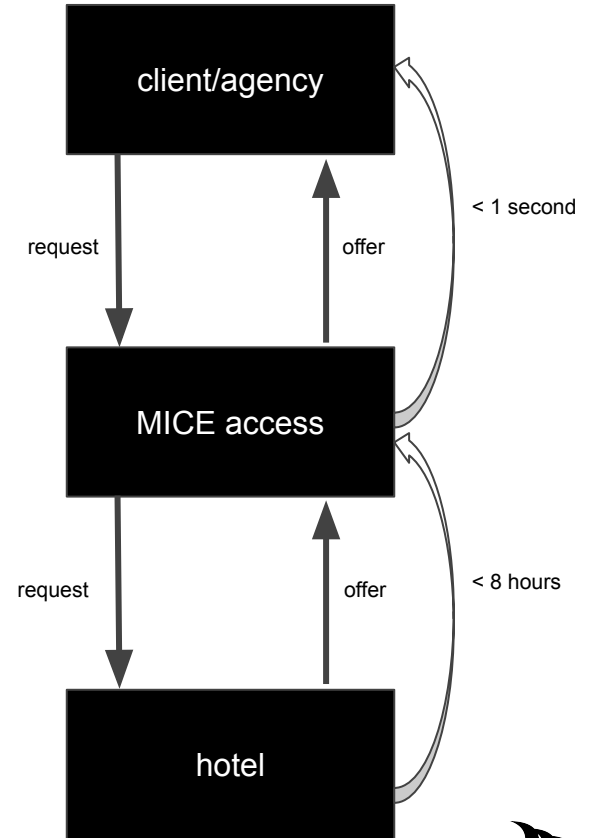

- CI-based client-support
- selection of 25,000 hotels and venues worldwide
- intuitive operation
- easy to compare offers
- innovative and unique RFP process with live availability
- included client-backend
- Create different employees with different authorizations

How does the request process work?

New: RFP-automation

standard online RFP-process

How does this work?

Request

The travel agency or customer selects up to 10 hotels/locations and/or venues for the request.

After starting the request, the hotels or locations have time up to 5 days to answer the request.

Offer/Cancellation

After the availability check, the hotel or location will submit an offer or cancellation via the MICE access tool.

Booking

The customer/travel agency can decide for an offer and can book this immediately.

The hotels/locations will receive the information about the booking via the platform.

Contract

The contract is concluded directly between the hotel/location and the customer.

Accounting

After the request has been successfully completed, MICE access will contact the hotel regarding the commission billing.

Afterwards the travel agency will receive the commission of 55 % from MICE access.

Always fair play!

The hotel's average commission rate of **10%** gives you a commission of **55%** per booking through our fair commission sharing!

MICE access not only provides you with absolute transparency, we also take care of the feedback of the hotels for each request and the commission billing for every booking.

Less effort and more income for you!

What is MICE access?

MICE access is the global distribution platform for the MICE market and leading provider of white label technology for travel agencies.

Your White Label MICE portal

MICE access offers you a comfortable platform for international hotel bookings with a focus on the MICE segment. MICE access is only offered as a white label solution for providers and agencies and is the German market leader in this field. The customers of MICE access "White Label Solution" can use the platform to find and book online hotels for business trips, conferences and trade shows. With a personal access, customers have the opportunity request and book more than 12,000 group and conference hotels worldwide. In addition there is the possibility to book rooms directly online in more than 500,000 hotels.

facts and figures via MICE access

... over 10 years of experience with deep expertise

- currently used by more than **18,500** international end customers
- is a neutral intermediary between more than **25,000** hotels/locations
- has an annual hotel volume of **€ 50** million
- offers its partners a personal and professional service
- has leading interface technology that is constantly evolving
- binds its customers through performance, not through contracts

Online conference planning thanks to effective RFP processes!

The travel agency and their customers have access to more than 25,000 hotels, locations and venues worldwide for group and meeting requests.

They have the possibility to plan even complex meetings within only a few minutes.

The complete request, quotation and booking process takes place online in the "White Label Version" of the travel agency.
